BRICK ORDERED FOR NEW CHURCH.

We learn that the bricks have been ordered for the new Southside E Church which is soon to be erected on the corner of Appletree and La Fayette Streets.

The old church and parsonage on South St. Andrews street is to be sold and the proceeds to be used in the construction of the new house of worship.

The trustees of this church complete building a nice house on heir new lot which was purchased of Mr. George Weeks some weeks since.

The moving of this church near the center of population will greatly improve the usefulness of the church and there will be gained for it many new and useful members.

There is ample room in Dothan for two churches of this denomination as there are plenty Methodists in this city to support both of them and so on.

It was a good idea to bring Southside Church closer in and we will be glad to see a handsome structure put up on the new lot.

ANOTHER BRIDGE AFIRE.

Last night, while a train was passing over the Chattahoochee bridge at Viana, on the Coast Line, the engineer discovered the trouble work on the bridge. The train was stopped and the fire extinguished before the bridge was much damaged.

The railroad people think the fire was the work of an incendiary. Night before last a bridge farther down was discovered burning just in time to save it, and the night before that a bridge was burned near Cain, which delayed all trains several hours.

"How Times Have Changed."

The editor of the Paris Appeal writes of the new times and manners.

"When we were young people had colds, soaked their feet in hot water and got well. Now they have grip, take quinine and feel sick all summer. Then they had sore throats, wrapped a piece of fat pork in an old sock, tied it around the neck all night and went to work next morning. Now they have tonsillitis, a surgical operation and two weeks in the hospital. Then they had stomach-ache and took castor oil and recovered. Now they have appendicitis, a week in the hospital and six feet due east and west and four feet perpendicular. Then they worked by labor now. In those days they wore underclothes now they wear lingerie. Then they went to a restaurant, now they go to a cafe. Then they broke a leg, now they fracture a limb. People want crabs then, they have brain storms now. Politicians paid good hard cash for support, now they send government vegetable seeds."

The Circuit court adjourned this morning and the Judge discharged the jury. Next week will be taken up with the criminal docket. Several murder cases are set for a hearing.

The usual Saturday crowds seen in Dothan were not so much in evidence today on account of the inclemency of the weather.

WEATHER FORECAST FOR ALABAMA

Fair tonight and Sunday heavy frost tonight

Potatoes don't fight they don't have to

Money is getting easier. We got a couple of dollars the other day and it got away in ten minutes

The fellow who starts out for a good time in this world and nothing more usually gets but little of it before he finds that he's a fool

Something has been said first and last about planting Irish potatoes to sell. The farmer of this county certainly have the land to grow almost anything on and potatoes are usually a sure crop every time. Those who know say that they are sure to bring a pretty fair price all the time. There is out that element of uncertainty that was experienced about the cantaloupe business this year.

The same old seven and six. That is a saying that we want some light on. We feel like it started by some fellow buying his boy a pair of shoes at an auction sale, and bought a bargain, and, therefore got the shoes mismatched, and that they were taken back for a swap. Then it was discovered that the man of bargain had no matches for the pair of shoes, and when they were carried back to the boy he remarked "The same old seven and six!" Just why he didn't say six and seven has never been explained.

It's a sight just to see how few people will miss you if you go out of town for a few days, even weeks. One can leave here and take a trip to Europe, and come with royalties for several weeks, and on returning home, extend the glad hand to everybody he meets, and about half of them will ask you if you have been out of town. The man who has lived in Dothan and was so unfortunate as to move away when he returns, will find that but few people will speak to him, feeling that they see him every day, and that he's no visitor.

Quite a news item is going the rounds of the press telling of the closing of the Schwab's seven million dollar home. Suppose you might call it a home but if it were down this way it would be the big show of the night. Now the man is closing up that house, putting out the fire, calling the dog, and leaving all that mass of stone and art work there for the wandering passerby to see. All who see it are bound to sympathize with the millionaire owner. It may be called a home but in fact it never has been or it wouldn't be shutting it up to take up quarters at a cold hotel.

BAD ROADS

The Houston County Grand Jury paid their respects to our public roads in the county, at this term of court, and declared our present system of road working a failure. Of course it is a failure and the sooner the law is repealed and some other better plan put into operation the better.

But in the mean time it behooves us to help ourselves and begin the building of roadways, and not wait for the state to do the work by legislation or otherwise. If we do we will die of old age before they come.

But read what the Grand Jury say:

The public roads of the County have been reported to be in their usual condition—very little improvement and some complaint.

We are of the opinion that the present law of keeping up the roads

is inadequate or a failure, and that some other system of working the roads will have to be adopted before we can secure anything like good roads.

WHAT WILL BRYAN DO?

The friends of Mr. Bryan are speculating on what can be given him, a few of his failures to be elected president. He might be sent to the United States Senate but for the fact that it will be two years before there is a vacancy from his state to that august body.

Some of his friends say that he can make more than the president if he should go on the platform which is doubtless true.

Yet many are urging the Nebraskans to take up the minority asserting that should he do so he would make one of the most noted divines this country ever produced.

Mr. Bryan is an able man, and we think his friends who seem so anxious about his future welfare are giving themselves unnecessary concern over his future. Bryan is well able to take care of himself in his race for a fortune as he has already made himself one of the most famous men in America. Mr. Bryan will not drop out of sight on account of his third defeat and there is no good reason why he should.

Mr. Bryan is a useful and kindly man and will do what he can for the good of his country.

DATE OF CONFERENCE.

Greensboro, Nov. 13—(Special.) Rev. E. A. Dannelly, Presiding Elder of the Greensboro District, has issued the official announcement which is of great importance to the Methodist preachers and laymen of Central and South Alabama and West Florida.

Bishop E. E. Moss authorizes and directs the announcement that the Alabama Conference to be held in Greensboro is postponed from December to Wednesday, Dec. 9.

Alabama Christian Advocate of next week will contain announcements including the special round trip rates on all the railroads.

E. A. Dannelly

The people of Greensboro are making preparations for the entertainment of this representative body of Alabama Methodism. The membership of the Conference, both lay and clerical, number about 340.

A delightful season is anticipated by the people of Greensboro.

OPPORTUNITY

YOUR OPPORTUNITY

Successful men are those who see their opportunities and grasp them. The career lies not so much in the seeing as in the grasping. There never was and never will be a better opportunity presented to men of limited means for such a good, safe investment as will be offered at the auction sale of fine large building lots at

Lincoln Park.

DOTHAN'S ADVANTAGES

Mr. W. S. Winchester, president and general manager of the Winchester Realty Co., New York City, who, on a recent visit to Dothan, became so impressed with the advantages of Dothan over other cities that he secured an option on the 100 lots of the Dr. R. D. Blackshears Lincoln Park plat on Burdeshaw street two blocks east of the college. 100 of these lots will be sold at auction.

100 Lots at Auction

IMPROVEMENTS GOING ON

The other 92 lots will be held till next year when many handsome residences will be built on them.

25 men are busy putting in the improvements at LINCOLN PARK. Come out and see the work progress. Every lot is now being staked, the streets being graded, the low places are being filled and the high places cut down. An elevated standard of excellence will be maintained over the whole plat.

See it by all means.

LOCATION

This property lies within three blocks of the business section of town and is the last centrally located property that can ever be thrown on the market at AUCTION in Dothan. Terms of payment will also be easy. If you will visit Lincoln Park now you will better comprehend the magnitude of the undertaking and the statement we make when we say this is CENTRALLY LOCATED Dothan dirt.

Best in the city.

BONAPARTE TO TEST LAW.

said to be interested in Alabama Contract System.

Montgomery, Ala., November 13.—A report from Washington is to the effect that Attorney General Bonaparte has become interested in the case of Alonso Bailey, who has carried the legality of the Alabama contract labor law to the supreme court of the United States and asked to be allowed to file a brief in support of the contention that the law is in violation of the thirteenth amendment of the federal constitution.

Bailey, who is a negro, is held on an indictment for failure to keep a contract to work. He was ordered released by Judge William H. Thomas, of the criminal court, and the state, in order to test the law, appealed.

NEGROES MADE TO LEAVE
 Nashville, Tenn., Nov. 13.—As a result of the operation of a gang of night riders in Hendrix county, this state, near the Montgomery county line, a number of negro families have left the state.

Within the past two weeks warnings have been sent out that this section of the county would be rid of negroes. Ed Williams was warned to leave about a month ago and did so. Several nights ago a band visited the former home of Williams and burned his house and stable. All the tenants on the farm of Ed Gup-ton have moved away.

365 MINERS ARE ENTOMBED.
 Berlin, Nov. 13.—Sealed up in a mine and doomed to die by fire or suffocation is the fate of 365 miners who were trapped in a pit at Hamm Westphalia, by an explosion of coal dust. There were 400 in the works of the Radbod mine when the disaster occurred, and of these only thirty-six were taken out alive. Most of the miners so badly burned that they are expected to die.

"SAWDUST TOWN"

Where Most of the Acrobats and Tumblers Come From.

Where do all the acrobats and tumblers come from? Where do they learn their trade? There is no school as such, for the training of men who imperil their limbs for a living. The Advance Car Manager of the Sun Brothers' Greater Shows, which was recently here billing for the appearance of their exhibition, and who by the way, is an old retired acrobat, is now following the advertising branch of the show business, solving the above questions when he told where he had learned to leap and turn springs in the air and fall on the back of his neck without injuring himself.

Most of the tented show acrobats and not a few of the rough and tumble comedians of the stage, who have graduated from the ring, were reared and learned the rudiments of their business in the lumber towns of the northwest. In the "business" these are known as "sawdust" towns on account of the sawmills, which are their chief industry.

There are many of these in Wisconsin and Michigan and several in Iowa that have turned out the bulk of acrobats and tumblers in the business.

In the "sawdust" towns the small boys have exceptional facilities for learning to turn somersaults and handstands in the great beds of sawdust that surround the mills. Soon they begin to try the more difficult feats they see done in the shows that visit the towns. After school hours they tumble until it is time to go home and do the chores. From out of them all there generally rise two or three boys who get the knack of acrobatic feats and these work in constant rivalry each trying to excel the other.

One day along comes a tented show and the best boy applies for a job and shows what he can do.

Perhaps he is given a chance as a "top mounter," or a top man in a pyramid act, because he is light and active. When he gets older, heavier and stronger, he may become an "understander," or one of the men who help to hold a mountain of men on his shoulders. If he works hard and studies he may become a good acrobat in time. But he got his start on a sawdust pile.

The Sun Brothers' Greater Shows, which appear here in the near future, present as a special feature an exhibition of some of the very best acrobatic and athletic acts ever put to

gether, they will be offered by such clever people as the Atlas Troupe, the La Pasque Troupe, the Ayello Troupe and the Liniger Trio.

Young Mr. West of the Panama City Pilot, was in Dothan for a short while yesterday.

J. W. McIntyre of Ashford brought to town one of the biggest sweet potatoes we have seen this year. It weighed five pounds, and was of the good variety.

The Florsheim SHOE

The difference in shoes isn't altogether a matter of looks.

Some Shoes look well enough. But they don't wear.
Some wear all right, but they give no comfort.
The Florsheim Shoe fits, wears and looks equally well.

The fall line is so full of attractive things, it's hardly fair to single out any one style. If you are a "man who cares," come in and see them all.

Most styles are \$5.00 and \$6.00.
